THREE KINGDOMS BATTLE

Official Three Kingdoms Battle Whitepaper

Updated August 2021

Game Background

The Three Kingdoms era was a period that dated from 220 to 280 AD immediately following the end of the Han dynasty and downfall of the evil Dong Zhuo.

During this time, Cao Cao, Liu Bei and Sun Quan, the three most powerful forces fought against each other forming the famous Three Kingdoms.

Gameplay

Three Kingdoms Battle is a platform based on the BSC (Binance Smart Chain) which combines both NFT games and Decentralized Yield farming. Players can purchase hero boxes from the Merchant store to receive generals in the form of NFT cards which can be deposited into farms to earn rewards.

Battles between players and the evil Dong Zhuo will be available to earn even more rewards, special NFT cards and weapons.

Merchant Shop

Merchant shop offers hero boxes that contain NFT cards, special weapons and horses that will be available to strengthen the generals fighting power.

NFT Generals Cards

Four camps: SHU, WEI, WU, Others

Level 1:
Level 2:
Level 3:
Level 4:
Level 5:
Level 6:

NFT Farming

Players can deposit the NFT cards in the farms to earn daily rewards. Experience points can be added to the generals to prepare for battles.

The reward distribution in the farms is based on the blocks of Binance Smart Chain.

Marketplace

Three Kingdoms battle marketplace is where players can trade their NFT cards and weapons with each other. All trading pricing will be determined by players.

Battle Games

Three Kingdoms battle marketplace is where players can trade their NFT cards and weapons with each other. All trading pricing will be determined by players.

Players VS. Players

Platers VS. Evil Warlords
